

Technical drawing of a window frame assembly. The overall width is 145.0. The drawing shows four rectangular panes arranged in a 2x2 grid. Each pane has a width of 55.4. The height of the top row is 84.7, and the height of the bottom row is 68.6. Dashed lines indicate the diagonal bracing within each pane. The drawing includes details of the frame, sashes, and hardware (handles and hinges).

Technical drawing of a four-pane window. The overall width is 145.0. The overall height is 272.0. The drawing shows the window frame with four panes. The top-left pane has a width of 55.4 and a height of 84.7. The top-right pane has a width of 55.4 and a height of 84.7. The bottom-left pane has a width of 69.4 and a height of 68.6. The bottom-right pane has a width of 69.4 and a height of 68.6. The panes are separated by a central muntin and side muntins. The drawing includes dashed lines indicating the internal structure and dimensions.

Technical drawing of a double-row bolted flange connection. The drawing shows two horizontal rows of bolts. The distance between the centerlines of the two rows is 134.2 mm. The distance from the centerline of each row to the nearest edge of the flange is 70.2 mm. The total width of the flange is 145.0 mm. The bolts are represented by circles with crosshairs. The flange is shown as a shaded area on the left and right.

Technical drawing of a three-story building facade showing dimensions. The drawing includes a central section with three floors, flanked by hatched areas representing walls or foundations. Dimensions are given in meters: 140,3 for the total width, 70,2 for the width of each side section, 134,2 for the height of the middle section, and 145,0 for the height of the side sections.

Technical drawing of a rectangular frame. The overall width is 140,3. The distance between the inner vertical supports is 70,2. The overall height is 145,0. The distance between the inner horizontal supports is 23,0. The drawing shows the frame is supported by four corner brackets.

Technical drawing of a rectangular frame. The overall width is 140.3, divided into two equal segments of 70.2. The overall height is 145.0. The frame consists of two horizontal and two vertical members, each represented by a double line. The corners are reinforced with cross-bracing. The frame is shown within a larger rectangular context, with hatched areas on the left and right sides.
